## “YOUR LIFE CAN GET BETTER

WHEN PEOPLE ARE FIGHTING FOR YOU.

////////////////////////////////////

I was a young single mom without a job. I didn't even know how to find a good one, much less interview for it. I found out about **LifeWorks** through a family member and knew I had to try it — I had to do something. A few weeks into the training, I got hired by one of the Employer Partners. During that time I was learning about my own God-given abilities, and through a Career OnRamp, I was able to go to school to earn a certificate in the field of healthcare. Meanwhile, the team at Jobs Partnership was working behind the scenes on my behalf with a leading hospital to line up a full-time position with benefits. I am now a Health Unit Coordinator with the goal of continuing my training to be a nurse! ”

“YOU HAVE  
WHAT IT TAKES  
BUT YOU NEED OTHERS WHO BELIEVE THAT.

////////////////////////////////////

I made some bad decisions in my life, was really negative and had a hard time trusting anyone. I heard about **LifeWorks** and thought this could be a way to get ahead. What I didn't expect was how much my world opened up—not only by what I was learning but by the people I was meeting. The coaches believed in me, encouraged me and even helped me to get into my dream career. ”

## “YOU CAN DO ANYTHING

WITH THE RIGHT PEOPLE HELPING YOU.

////////////////////////////////////

I left my friends and family in Chicago thinking my professional degree and experience would protect me in my teaching career, but when my school downsized, I found myself struggling to find even part-time work. I found out about *LifeWorks* and thought, ‘maybe they can help me do more.’ I had no idea what forming relationships with the right people could do—before the training course was over my coaches helped me through a lengthy interview process for a new position. Just one week after the training was over I was hired as the Assistant Principal at a thriving school! ”
